## Add multiple school licences to an organisation

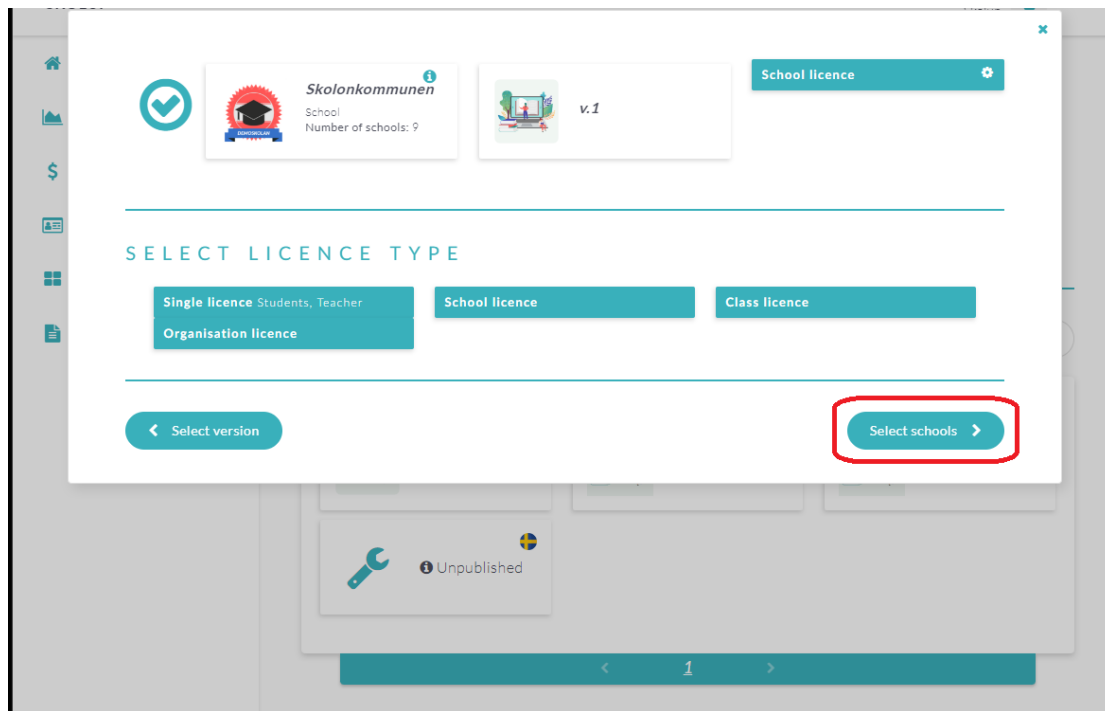

Ulf Kronsell - 2023-05-09 - [Create New Order/Licences](#)

To distribute a number of school licences to an organisation, there is a more efficient way than to search for schools one by one.

Search and select Customer organisation, then **Select Tool**.

The screenshot shows the SKOLON web application interface. On the left is a sidebar with navigation links: Start, Statistics, Economy, Licence management (with a red notification icon), Tools, and Documentation. The main content area is titled 'CREATE ORDER / CUSTOMER / TOOLS' and 'SELECT CUSTOMER'. It features a search bar with the text 'Skolonkommunen' and a 'Filter' button. Below the search bar, a message says 'Select school which will be the customer on the order'. A list of search results is displayed, with the first result 'Skolonkommu...' selected, indicated by a checkmark icon. The selected result shows 'School' and 'Number of schools: 9'. A pagination bar shows '1' of 1 results. At the bottom, a 'Select tool' button is highlighted with a red rectangle.

Click the **School licence** and then click **Select schools**.

Click the schools you want to distribute licences to. Click **Done**.
